

Amendments to the Specification:

Please amend the title as follows:

Standalone Implantable Medical Power Module

[0001] This application is a continuation of allowed U.S. Patent Application 10/310,390 filed December 5, 2002 and published May 8, 2003 as US-2003-0085684-A1, which claims priority to provisional application number 60/402,323 filed August 9, 2002 and is a continuation-in-part of application serial number 10/042,898 filed January 9, 2002 entitled “Method and Apparatus for Amplitude Limiting Battery Temperature Spikes”, now U.S. Patent 6,586,912, and application serial number 10/014,757 filed November 7, 2001 entitled “Electrochemical Battery Safety Method, Device and System”, now U.S. Patent 6,531,847, each of which is incorporated herein in its entirety by reference, including all disclosures submitted therewith.
